

Dear Hiring Team,

I'm Usman, a **data-driven** Master's student at HTW Berlin with B2B SaaS experience in shipping **AI** projects like Conversational AI for our logistics ERP. Your mission to **revolutionize customer service with AI Agents** strongly aligns with my experience in supporting **AI**-powered product development and my passion for using **technology** to optimize complex processes, positioning me well for the Agent Architect Working Student role at Parloa.

Operational Support and Project Coordination

At HashMove, a B2B I supported **project execution** for new AI-powered SaaS modules, which involved **project coordination**, process mapping, and developing **documentation** along with video tutorials. I led the design of our [AI-powered logistics suite](#), working across three use cases: **Conversational AI** (experts + navigation), **Analytics AI** (text-to-BI), and **Automation AI** (Agents + Intelligent Document Processing). I collaborated **cross-functionally** with engineering, sales, and design teams to ensure **project progress and deliverables** met deadlines.

Process Optimization and Internal Tools

I have a **proactive mindset** for improving efficiency. I built advanced **Excel** models to automate sales proposals, reducing processing time by 13%. I am proficient in the **internal tools and systems** you use, including **Jira**, **Notion**, **Google Workspace**, and **Excel**, to manage project workflows and support **data organization**, along with **n8n** to automate processes.

Communication and Attention to Detail

My work requires strong **attention to detail**, particularly in **documentation** and analysis. I previously led a vendor evaluation project for tracking APIs and directed a 100% GDPR compliance implementation, both of which required meticulous review and **quality assurance** to meet enterprise standards. I've excellent communication skills, having written articles on **Agile Development** with [illustrations](#), amassing **800k+ views** on **Quora**, and an **8.5 IELTS** score.

Non-Confidential Projects & Certifications

- [Agentic AI in Finance](#): Explored Agentic AI use cases in Finance, creating **n8n** PoC
- [AI-Powered Logistics](#): AI-powered logistics platform (including **Conversational AI**)
- [Video Onboarding Tutorial](#) for the Arab British Chamber of Commerce
- [Figma Article Illustrations](#): Simplifying Agile SDLC concepts for diverse audiences.
- [Certifications](#): Intermediate SQL, Intermediate Python, Customer Analytics (UPenn)

Position Preference & Availability

I'm based in Berlin and immediately available. I speak **English (C2)** and German (learning A2) and thrive in fast-paced, collaborative environments that value growth and experimentation.

Thank you for your time and consideration.

Warm Regards,

Usman Zakria
